Civil Engineering Database Subject Heading Index

The **Civil Engineering Database (CEDB)** is designed to provide free, easy bibliographic access to all ASCE publications. The database covers ASCE documents published since 1970. It provides access to all the journals, conference proceedings, books, standards, manuals, magazines, and newspapers. The index terms below were assigned to papers published in this journal during 2005 from a CEDB subject heading list. The CEDB and subject heading list can be accessed on the Web at *http://www.pubs.asce.org/cedbsrch.html*.

Air flow
Field and Laboratory Validation of High-Flow Air Bubbler Mechanics. — Andrew M. Tuthill and Richard L. Stockstill; 19(3), 85-99 (2005).

Alaska
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).

Boundary conditions
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Bubbles
Field and Laboratory Validation of High-Flow Air Bubbler Mechanics. — Andrew M. Tuthill and Richard L. Stockstill; 19(3), 85-99 (2005).

Canada
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

China
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).

In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).

Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (2005).

Climatic changes
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).

Coefficients
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Cooling
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).

Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (2005).

Creep
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Diffusion
Field and Laboratory Validation of High-Flow Air Bubbler Mechanics. — Andrew M. Tuthill and Richard L. Stockstill; 19(3), 85-99 (2005).

Displacement
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Embankment stability
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).

Embankments
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (2005).

Entrainment
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Experimentation
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (2005).

Geology
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).

Ice loads
Ice Tank Tests on Ice Rubble Loads Against a Cable-Moored Conical Platform. — Robert Ettema and Wilfrid A. Nixon; 19(4), 103-16 (2005).

In situ tests
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).

Indoor air quality
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).

Lateral loads
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Models
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).

Mooring
Ice Tank Tests on Ice Rubble Loads Against a Cable-Moored Conical Platform. — Robert Ettema and Wilfrid A. Nixon; 19(4), 103-16 (2005).

Numerical models
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Permafrost
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (2005).
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Piles
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Platforms
Ice Tank Tests on Ice Rubble Loads Against a Cable-Moored Conical Platform. — Robert Ettema and Wilfrid A. Nixon; 19(4), 103-16 (2005).

Predictions
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).

Radon
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).
Railroad tracks
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (2005).
Remedial action
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).
Road construction
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).
Rocks
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).
Slope stability
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).
Snow
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).
Snowdrifts
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).
Stiffness
Ice Tank Tests on Ice Rubble Loads Against a Cable-Moored Conical Platform. — Robert Ettema and Wilfrid A. Nixon; 19(4), 103-16 (2005).
Temperature
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (2005).
Validation
Field and Laboratory Validation of High-Flow Air Bubbler Mechanics. — Andrew M. Tuthill and Richard L. Stockstill; 19(3), 85-99 (2005).
Velocity
Field and Laboratory Validation of High-Flow Air Bubbler Mechanics. — Andrew M. Tuthill and Richard L. Stockstill; 19(3), 85-99 (2005).
Ventilation
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).
Wind tunnels
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Author Index

Cheng, Guodong
Permafrost Studies in the Qinghai–Tibet Plateau for Road Construction. — Guodong Cheng; 19(1), 19-29 (2005).

Cole, David M.
Editor's Note. — David M. Cole; 19(1), 1-2 (2005).
Farewell. — David M. Cole; 19(4), 101-2 (2005).

Dinakaran, Satish
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).

Dongqing, Li
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).

Ettema, Robert
Ice Tank Tests on Ice Rubble Loads Against a Cable-Moored Conical Platform. — Robert Ettema and Wilfrid A. Nixon; 19(4), 103-16 (2005).

Foriero, A.
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Fukushima, Yusuke
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Johnson, Ron
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).

Kikuchi, Takuro
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Ladanyi, B.
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Lai, Yuanming
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (T) (2005).

Nishimura, Kouichi
Snow Entrainment Coefficient Estimated by Field Observations and Wind Tunnel Experiments. — Takuro Kikuchi, Yusuke Fukushima, and Kouichi Nishimura; 19(4), 117-29 (2005).

Niu, Fujun
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (T) (2005).

Nixon, Wilfrid A.
Ice Tank Tests on Ice Rubble Loads Against a Cable-Moored Conical Platform. — Robert Ettema and Wilfrid A. Nixon; 19(4), 103-16 (2005).

Oswell, James M.
Discussion of "Field Investigation of Soil Heave by a Large Diameter Chilled Gas Pipeline Experiment, Fairbanks, Alaska" by Scott L. Huang, Matthew T. Bray, Satoshi Akagawa, and Masami Fukuda. — James M. Oswell and Alexandre Tchekhovski; 19(1), 30-6 (2005).

Schmid, Jack
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).

Seifert, Rich
Use of Simulink for Dynamic Air Quality Modeling in Interior Alaska. — Ron Johnson, Jack Schmid, Satish Dinakaran, and Rich Seifert; 19(1), 3-18 (2005).

St-Laurent, N.
Laterally Loaded Pile Study in Permafrost of Northern Québec, Canada. — A. Foriero, N. St-Laurent, and B. Ladanyi; 19(3), 61-84 (2005).

Stockstill, Richard L.
Field and Laboratory Validation of High-Flow Air Bubbler Mechanics. — Andrew M. Tuthill and Richard L. Stockstill; 19(3), 85-99 (2005).

Tchekhovski, Alexandre
Discussion of "Field Investigation of Soil Heave by a Large Diameter Chilled Gas Pipeline Experiment, Fairbanks, Alaska" by Scott L. Huang, Matthew T. Bray, Satoshi Akagawa, and Masami Fukuda. — James M. Oswell and Alexandre Tchekhovski; 19(1), 30-6 (2005).

Tuthill, Andrew M.
Field and Laboratory Validation of High-Flow Air Bubbler Mechanics. — Andrew M. Tuthill and Richard L. Stockstill; 19(3), 85-99 (2005).

Wei, Ma
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).

Yu, Wenbing
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (T) (2005).

Zhang, Xuefu
Experimental Study on the Ventiduct Embankment in Permafrost Regions of the Qinghai-Tibet Railroad. — Wenbing Yu, Yuanming Lai, Xuefu Zhang, and Fujun Niu; 19(2), 52-60 (T) (2005).

Zhizhong, Sun
In Situ Test on Cooling Effectiveness of Air Convection Embankment with Crushed Rock Slope Protection in Permafrost Regions. — Sun Zhizhong, Ma Wei, and Li Dongqing; 19(2), 38-51 (2005).
